Welcome to Renal Care Consultants. Committed to excellence in healing, Renal Care strives to meet the immediate and long-term medical needs of our patients.

We recognize that your time is valuable, but in order to ensure the accuracy of your electronic record, we are requiring **all established patients to arrive 15 minutes prior to scheduled appointment time and new patients to arrive 30 minutes prior to scheduled appointment time.** The time listed on your appointment card is your check-in time. This additional time ensures that your provider has all the necessary information available for your appointment.

Patient Registration Forms

In preparation for your visit please complete the enclosed registration forms. It is not necessary to mail them back; simply bring the completed forms with you when you come in for your first appointment.

What to Bring

To ensure that we can smoothly set up and process your information within our electronic health record system, please bring the following to **every** appointment:

- Your current insurance card(s)
- Your driver's license or other photo ID
- Your co-payment. *Please note that all co-payments are due on the day of your appointment.*
- **Your medications, in their original dispensed bottles, including any over-the-counter medications or supplements.**

We thank you in advance for your cooperation.
All of us at Renal Care Consultants look forward to serving you!

From Interstate 5, take Exit 27 to E. Barnett Rd. Turn right on E. Barnett Rd. and follow the signs to Asante Rogue Regional Medical Center. Continue past the hospital and turn right into Golf View Dr.
